

Holland OilTech Services BV

We do - you succeed!

Products/Service

www.hotsbv.com

Holland OilTech Services BV has earned a commendable reputation of reliability and quality due to our adherence to uncompromising standards of quality. We focus upon delivery of high quality, durable products along with superior client services, which offers our clients a competitive advantage and create value for their business. In order to achieve our goal of offering quality products, we concentrate on offering value-added services to our customers and satisfying emerging market needs.

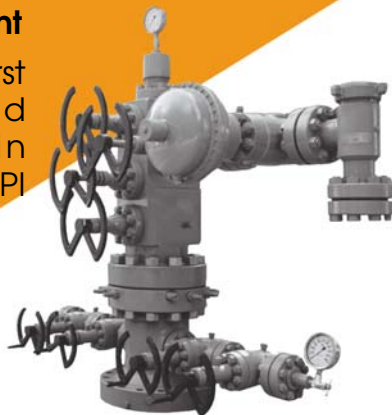

Drill Bits.....

HOTS BV provides its own designed PDC-bits and Tricones for the Oil and Gas and Mining Industry. These high tech PDC-bits has the latest features and cutter technology.

Well Head Equipment

HOTS BV provides first Class well head equipment all in accordance with API Spec. 6A.

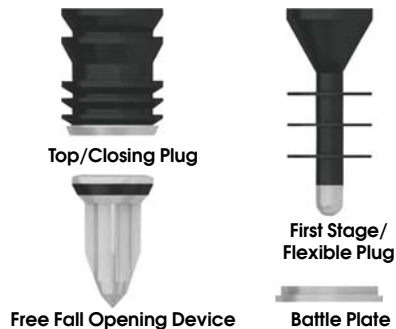

Casing / Tubing.....

HOTS BV provides a complete range of casing/tubing with and without Premium Threads. Tubulars are supplied direct from API-certified mills or from stock at our partners worldwide.

Casing Hardware.....

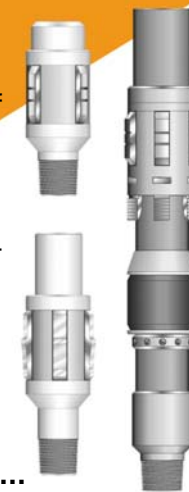

HOTS BV provides API certified guide or float shoes, float or landing collars, centralizers, scratchers, cement baskets, stage-cementing collars, differential fill-up equipment and other specialized equipment to help achieve successful placement and cementation of the casing string.

Liner Hanger Equipment.....

HOTS BV provides a range of Liner Hanger Equipment, Tools, Rentals and Engineers.

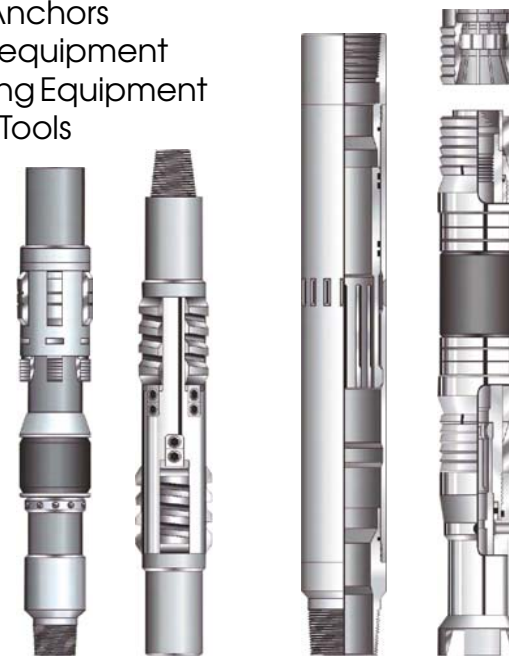

The Liner Hanger equipment has been manufactured in EU.

Completion Equipment.....

HOTS BV provides the following range of completion equipment:

- A)** Retrievable packer
- B)** Permanent packer
- C)** Seal Bore Packer
- D)** Tubing Anchors
- E)** Wireline equipment
- F)** Coil Tubing Equipment
- G)** Service Tools

Chemicals.....

HOTS BV provides high quality industrial minerals and additives for the Oil & Gas and Mining Industry.

HOTS BV NoWAX.....

HOTS BV provides **NoWAX** which is an innovative Cost Efficient and Environmentally Safe solution to Paraffin precipitation in Oil wells, Flow lines, Pipelines, Storage facilities and all Road, Rail and Sea going Tankers.

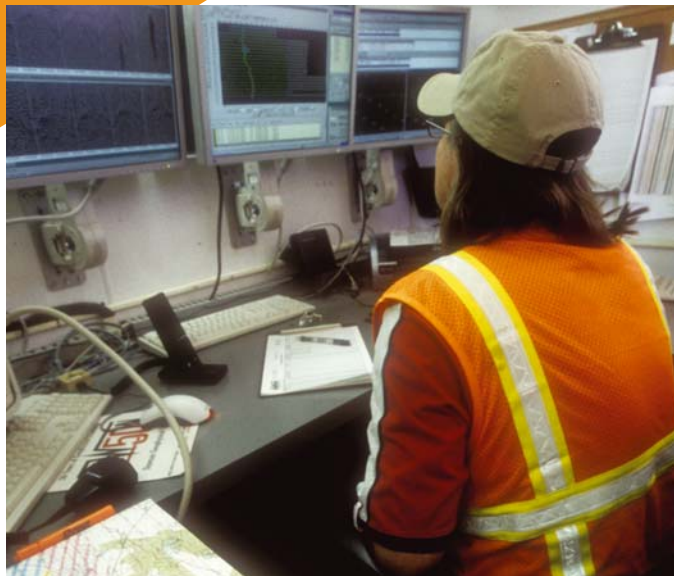

Bit Service.....

Our vision is to provide the best value-for-money, bit and bit / BHA optimization services, with the objective to improve operational efficiency while providing improved financial performance.

Our goal is to be as a service provided known for:

- Flexibility
- Excellent service provision
- Engineered solutions
- Fast delivery
- Excellent pricing
- Quality delivery

Our service is divided into operational and project engineering services. The operational services are focused on Bit and BHA supervision at the field location. The engineering is an In-depth service on a project approach, combining optimization services, including field services and drilling engineering services.

Operational Field services (day to day)

- Bit & BHA optimization
- Hydraulics optimization
- In- field daily support/ supervision
- Bit recording
- Dull grading
- Bit & BHA run evaluation and recommendations

In-Depth Engineering (project based)

- Risk & Reward time analyses
- Engineered analysis of the complete drilling cycle
- Engineered approach to major drilling concerns such a Pressure Management, Wellbore Integrity
- A Project approach

Our services are offered on the following basis:

- Complete field service
- Surface to TD well service
- Per hole section
- Purchase and or rental meterage

Our services are a complete drilling cycle analysis from planning, implementation, execution and evaluation including "Lessons Identified" and with " best practices" provided a means to "Lessons Learned" the process utilized is key to our successful process. We use our visualization software to assist our clients to visualize our findings and recommendations.
